ABOUT LVPAI PACKAGING

Flexible Packaging.
A Better Future.

WHO WE ARE

For over 15 years, we have been dedicated to the development and manufacturing of flexible packaging solutions. With a 16,000 m² production facility and an annual capacity of 8,000 tons, we combine manufacturing expertise with a strong focus on innovation and quality.

We work closely with our customers to develop the right packaging solutions for their products — from material selection and structural design to customized printing and production. Beyond packaging, we aim to support our customers in building stronger and more distinctive brands.

Guided by our mission, "Safe · Green · Innovative," we continuously invest in eco-friendly materials, advanced production technologies, and strict quality control processes to ensure consistent, reliable products that meet stringent international food safety standards.

CORPORATE STRUCTURE

Hebei Xiongan LvPai Packaging Material Technology Co., Ltd. as the Core Entity

THE SECOND DIVISION

Cangzhou Youxin Plastic Packaging Co., Ltd.

MANUFACTURING ENTITY

Dedicated production base responsible for manufacturing, quality control and process execution of all flexible packaging products.

THE FIRST DIVISION

绿派包装
LVPAI PACKAGING

PRIMARY BRAND · B2B

Hebei Xiong'an LvPai Packaging Material Technology Co., Ltd.

The core company of the group. Responsible for brand management, overall coordination, and both domestic and export sales.
All packaging solutions are delivered under the LvPai brand to global and local customers.

THE THIRD DIVISION

Hebei Xiong'an Yongsi New Material Technology Co., Ltd.

ONLINE E-COMMERCE SALES

Authorized sales company handling both domestic and export trade together with LvPai for global and local market coverage.

QUALITY CONTROL

Quality Built Into Every Step

Quality is at the core of our manufacturing process. Our professional QC team implements a four-step quality control system throughout production to ensure consistent and reliable packaging performance.

01

RAW MATERIAL INSPECTION

All incoming raw materials are inspected before production to verify specifications, appearance, and quality requirements.

02

PRINTING QUALITY CONTROL

Color & Visual Inspection
Printing quality is monitored throughout the production process. X-Rite Color Measurement ensures precise color comparison against approved standards.

03

LAMINATION INSPECTION

Bonding & Material Quality
After lamination, materials undergo quality inspection to ensure proper bonding, appearance, and structural integrity before entering the bag-making process.

04

FINISHED BAG INSPECTION

Finished bags are sampled according to AQL 2.5 to verify dimensions, appearance, sealing quality, and overall product consistency before shipment.

IN-HOUSE LABORATORY

Testing for Better Packaging

Our in-house laboratory provides comprehensive testing to evaluate packaging strength, durability, barrier performance and resistance under different conditions. Through systematic testing and quality verification, we ensure consistent and reliable packaging performance from production to delivery.

KEY TESTING CAPABILITIES

PUNCTURE TEST

Evaluates the package's resistance to puncture and damage.

TENSILE TEST

Tests material strength and resistance to breaking.

RETORT TEST

Verifies packaging performance under high-temperature retort conditions.

WVTR & OTR

Evaluates moisture barrier and oxygen barrier performance.

DROP TEST

Evaluates packaging integrity under simulated transportation impact.

PRODUCTION WORKSHOP

Advanced Equipment for Efficient and Stable Production

We are equipped with advanced production facilitieand a well-organized workshop, ensuring stable quality, high efficiency and reliable delivery for every order.

10-COLOR HIGH-SPEED PRINTING

Our printing machines can do 10-color printing at most, digital monitoring, real-time data.

PRODUCTION
PROCESS FLOW CHART

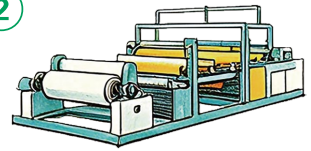
1

原材料 / Raw Materials

各类卷筒薄膜、油墨

Various roll-stock films and inks

2

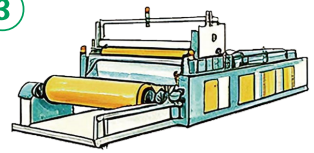


印刷 / Printing

高速10色凹版印刷机、前后收放卷结构
烘干烘箱、套印、版辊

High-speed 10-color gravure printing press with front-and-rear unwind/rewind drying ovens, precision registration, and plate cylinders

3



复合 / Lamination

多种薄膜涂胶贴合
制成多层阻隔软包装基材

Adhesive lamination of multiple films to produce multi-layer barrier flexible packaging substrates

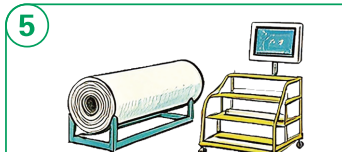
4

熟化 / Curing

胶水充分固化
提升复合膜粘结强度与稳定性

Full adhesive curing to enhance bonding strength and stability of laminated film

5

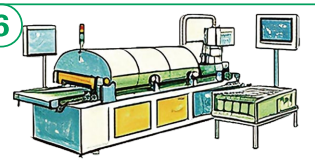


冷却 / Cooling

快速带走复合余热，消除褶皱
提升薄膜平整度与熟化效果

Rapid dissipation of lamination residual heat, eliminating wrinkles, improving film flatness and curing effect

6

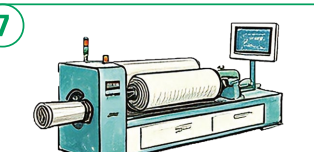


视觉检测 / Visual Inspection

自动检测印刷瑕疵、脏点、漏印
剔除不良包装袋

Automatic detection of printing defects, dirt spots, and missed prints, rejecting defective packaging bags

7

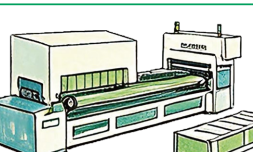


分切 / Slitting

将宽幅母卷精准裁切
分切成指定宽度成品卷材

Precision slitting of wide-format master rolls into finished rolls of specified widths

8



制袋成型 / Bag Making

全自动制袋机自动封切成型
高速生产各类包装袋

Fully automatic bag-making machines for sealing, cutting and forming, high-speed production of various packaging bags

9

质检 / Quality Inspection

成品按工艺单质检
不良品放入不良品箱

Finished products inspected per process specifications, defective items placed in rejection bins

10

入库、发货 / Warehousing、Shipping

成品检验清点入库
按订单分拣打包安排发货

Inspection, counting and storage of finished goodsSorting, packing and arranging dispatch according to orders

CERTIFICATION & COMPLIANCE

Committed to International Standards

Quality and compliance are built into every stage of our packaging production. Through internationally recognized management systems and professional third-party testing, LvPai Packaging maintains consistent quality, product safety and reliable performance for customers worldwide.

BRCGS PACKAGING MATERIALS

Global Standard for Packaging Materials
Issue 7. Grade B+

Certified for flexible plastic composite films and bags for direct food contact,covering gravure printing, laminating,curing, slitting and bag making.

BRCGS
Packaging Materials
CERTIFICATED

Certificate CN24/00007698
This is to certify that
Cangzhou Youxin Plastic Packaging Co., Ltd.
Zone B, Packaging and Equipment Manufacturing Park, Dongguang County, Cangzhou City, Hebei Province, 061600, P. R. China
SITE CODE 1651689
has been assessed and certified as meeting the requirements of
Global Standard for Packaging Materials
Issue 7: October 2024
Achieved Grade: B+
Audit Programme: Unannounced (1 in 3)
For the following activities:
Gravure printing, laminating, curing, slitting and bag making or not of flexible plastic composite films and bags (Biaxially oriented polyamide/Polyethylene terephthalate /Retort cast polypropylene /Aluminum foil/Low density polyethylene) for direct food contact
Exclusions from scope: None
Product Categories: 5, 7
AUDITOR NUMBER: 25799
Date of Evaluation: 06 January 2026
Certificate Issue Date: 08 February 2026
Re-Evaluation Due Date: 30 April 2027
Certificate Expiry Date: 11 June 2027
This certificate supersedes all other certificates bearing this certificate number with earlier certificate issue dates.
If you would like to give feedback on the BRCGS Standard or the audit process directly to BRCGS, please contact enquiries@brcgs.com or use the BRCGS reporting system at https://ufcatalogs.whistleblowerhotwork.net. To verify certificate validity, please visit https://directory.brcgs.com.

MONO PE

Recyclable. Flexible. Versatile.

Our Mono PE packaging is made from a single material structure of polyethylene, designed for recyclability without compromising on performance. It offers excellent flexibility, durability and sealing performance, making it an ideal choice for a wide range of packaging applications.

100% Recyclable

Flexble & Durable

Excellent Sealing Performance

Supports a Circular Economy

KEY FEATURES

- Single material PE structure.
- Good mechanical strength and puncture resistance.
- Excellent heat sealing and moisture barrier.
- Suitable for a variety of product formats.
- Customizable thickness, size and printing.
- Compliant with recyclable packaging guidelines.

TYPICAL APPLICATIONS

- Food
- Pet Food
- Personal Care
- Household Products

MONO PP

Recyclable. Retort-Ready. Reliable.

Our Mono PP packaging is a single-material polypropylene solution, developed for high-performance and recyclability. With excellent heat resistance and mechanical strength, it is specially designed for demanding applications such as retort sterilization, while supporting a circular economy.

High Heat Resistance

Strong & Reliable

100% Recyclable

A More Sustainable Choice

KEY FEATURES

- Single material PP structure.
- High temperature resistance, suitable for retort.
- Good barrier performance (with optimized design).
- Suitable for retort pouches.
- Customizable specifications and printing.
- Compliant with recyclable packaging guidelines.

TYPICAL APPLICATIONS

- Ready Meals
- Pet Food
- Sauces & Liquids
- Retort Food

PET FOOD PACKAGING

Fresh Food. Happy Pets.

Flexible packaging solutions for pet food, suitable for dry food, treats and nutritional supplements. Excellent barrier performance keeps products fresh, safe and delicious, while attractive designs help your brand stand out.

FRESHNESS PROTECTION
Good bamier against moisture, oxygen and odor.

DURABLE
Tear-resistant and strong sealing.

CUSTOMIZABLE
Various sizes materials and printing options.

WIDE APPLICATIONS
For dog food, cat food, treats and more.
